

Saints Philip & James School

Presents

Mad Science Summer Camps

Exciting activities and spectacular demonstrations to capture the children's attention!

In each session, the children receive a **take home experiment & project sheet** to reinforce the topic.

Our instructors are **energetic, enthusiastic, and experienced!**

Space: Infinity & Beyond

Week of July 9th

9:00 AM - 12:00 PM

Grades K-5th

If your child is astro "nuts," he or she will absolutely love this camp! Children involved in this program will develop an interest for outer space or can expand a previous passion for our sensational solar system. Using the Scientific Method, campers will investigate the mechanics of unique flying machines, such as balloon-copters, boomerangs, and mini hovercrafts. Children will be transported to the past as they delve into how early "pilots" navigated throughout space as they create their own sextant and sundial. Building upon previous experiments and knowledge learned throughout the week, campers will use what they've learned to construct a model rocket and have the option of participating in a live launch demonstration.

Price: \$145 per child (please make checks payable to Saints Philip & James School)

Camp location:

Saints Philip & James School

137 Roseberry Street

Phillipsburg, NJ
