

NAME: _____ DATE _____

DIRECTIONS:

- Read Acadia Files: Book One, by Katie Coppens
- Reflect on how she approached solving problems and how she wondered about other ideas as she came to solving her original problems.
- Think about what it is you wonder about. Then follow the scientific process of learning (pgs. 16-20) about what your wonder is. Your wonder MUST be something you can test.
- Complete the packet, including creating a graphic source to communicate what you learned.
- Have fun!
